

## INTRODUCING DERMAFRAC™

We are pleased to announce the introduction of DermaFrac™ treatments in our office. DermaFrac™ is a revolutionary new skin rejuvenation procedure that infuses targeted serums to your skin via pathways created by micro-needles. This no-downtime treatment improves the overall appearance of your skin with no bleeding or pain.

DermaFrac™ has been shown to improve:

- superficial fine lines and wrinkles
- skin dehydration
- acne
- scars
- stretch marks
- pigmentation
- sun spots
- uneven skin tone
